

HIGH SCHOOL COOPERATIVE PROGRAM

The High School Cooperative (HS Co-op) Program at Los Alamos National Laboratory (LANL) provides qualified high school seniors the opportunity to develop employability skills and gain work experience, while receiving exposure to a variety of technical and administrative career fields.

Appointments can be full-time during the summer between the junior and senior years and may continue as part-time during the senior academic year.

HS CO-OP ELIGIBILITY

- Must be a high school senior
- Must be at least 16 years of age
- Must be a U.S. citizen
- Must be in good academic standing

HOW TO APPLY

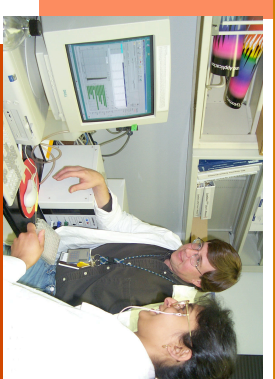

Application information and materials are delivered to participating high schools during scheduled campus visits each year.

Application materials include: a résumé, a completed LANL Supplemental Employment Form, a Skills Profile Form, and a current transcript.

Applications must be submitted through the high school counselor and received by the deadline.

HIGH SCHOOL COOPERATIVE POST-GRADUATE CATEGORY

The High School Cooperative Post-Graduate category offers high school graduates the opportunity to participate in a relevant work experience at LANL. Students in this category have graduated but have not yet been accepted and/or enrolled in an undergraduate program. Post-graduate students may remain in this category for one year, and are encouraged to take classes during this year. Once documentation indicating acceptance into an undergraduate school is provided, the student may move to undergraduate status.

MENTORSHIP

All students selected for an internship at LANL will work under the guidance of a mentor, and benefit from an integrated education and work plan. Mentors provide support and help to create a positive working atmosphere by orienting students to the professional working environment.

UNDERGRADUATE STUDENT PROGRAM

The Undergraduate Student (UGS) Program offers summer, part-time, and full-time internships for undergraduate students. The program is year-round and provides students with relevant work experience while they pursue an undergraduate degree. Opportunities are available in technical and administrative fields.

ELIGIBILITY REQUIREMENTS

- Completion of a high school degree by date of hire
- Acceptance in an undergraduate academic program
- Actively enrolled in college or university courses

UGS POST-BACCALAUREATE CATEGORY

The Post-Baccalaureate category of the UGS Program offers college graduates who have completed a Bachelor's degree but who have not yet been accepted and enrolled in a graduate program, the opportunity to conduct research at LANL. Participants may remain in this category for up to one year.

LANL Science Areas:

Los Alamos National Laboratory is located at the base of the Jemez Mountains in northern New Mexico. In this beautiful natural environment awaits an opportunity for you to work in a world-class research facility. At LANL, you can immerse yourself in 21st century science where people who find intrigue and fulfillment in science make contributions to research and development. Established in 1943 and managed by the University of California for the Department of Energy, the Laboratory's mission is to provide scientific leadership for the nation and the world in areas as diverse as:

- | | |
|---------------------|---------------------------|
| • Accelerators | • Hazardous Waste |
| • Advanced Concepts | • Manufacturing Materials |
| • Astronomy | • Mathematics |
| • Biology | • Medicine/Health |
| • Chemistry | • Modeling/Simulation |
| • Computing | • Nonproliferation |
| • Defense Sciences | • Nonlinear Studies |
| • Energy | • Nuclear Weapons Physics |
| • Engineering | • Space Sciences |
| • Environmental | • Superconductivity |
| • Explosives | • Testing and Evaluation |
| • Geology | • Theory |
| • /Geophysics | • Nontechnical |
| • Genomics | |

Application materials for the undergraduate programs are accepted year-round and will be kept on file for one year from date of receipt. Applications must be submitted to Human Resources by April 1.
